

# ELVIS JOHN REYES CAYETANO

## Senior Web Developer

09306915794 | elvisreyescayetano37@gmail.com | Barangay 175, Caloocan City

## EDUCATION

---

AMA Computer Learning Center  
2014-2018

**Bachelor of Science in Information Technology**  
Butuan City

## PROFESSIONAL SUMMARY

Seasoned Full Stack Developer with 7 years of hands-on experience in Frontend Development and 5 years working across the fullstack. Specialized in building responsive, user-focused interfaces and scalable web applications for clients in the Information Technology and digital services sectors. Adept at creating clean, performant, and accessible UIs using modern frameworks while integrating seamlessly with robust backend systems.

Highly skilled in leveraging pre-rendered and component-based frontend frameworks (such as React, Vue, and Next.js), as well as designing custom UI/UX solutions tailored to specific client needs. On the backend, experienced in developing and maintaining APIs, handling server-side logic, and managing databases to support complex, data-driven applications.

Recognized for delivering high-quality, well-structured code with a strong focus on performance, maintainability, and scalability. An analytical thinker and problem-solver who thrives under pressure, consistently meeting project deadlines without compromising quality or functionality. Detail-oriented and organized, with a proven ability to manage multiple projects simultaneously while maintaining accuracy and efficiency across all stages of development.

## WORK EXPERIENCE

---

### Fullstack Web Developer

---

Elgada BPO Solutions Inc.  
March 2024 - Present

- I am a fullstack Developer responsible for redesigning and rebuilding legacy websites from the ground up using modern technologies, with a primary focus on ReactJS.
- Collaborated closely with UI/UX and graphic designers to translate design prototypes into functional, responsive web applications, offering suggestions to enhance user experience and interface design. Additionally, incorporated feedback and revisions from project owners to ensure the final product meets their requirements and aligns with overall project goals.
- Implemented Continuous Integration/Continuous Deployment (CI/CD) practices to automate testing and deployment processes, conducting thorough quality assurance to ensure seamless, error-free launches and high-quality releases.
- Followed agile methodologies, participating in daily stand-ups, sprint planning, and retrospectives to ensure timely and efficient project delivery.
- Actively participated in code reviews, providing constructive feedback to improve code quality and adherence to best practices.
- Integrated RESTful APIs, third-party services, and GraphQL to ensure seamless communication between frontend and backend systems, enhancing data retrieval from the new database.
- Developed and maintained responsive websites optimized for a wide range of devices, including desktops, tablets, and mobile phones, using HTML5, CSS3, and JavaScript.

# TECHNICAL SKILLS

## Frontend Development

- Languages: Javascript/ES6, Typescript
- Frameworks: ReactJS, jQuery, NextJS, Redux, Jess, React testing library, Vite, Vitest, React Relay
- UI Libraries: Material UI, Tailwind, SASS

## Database & Caching

- SQL: Mysql
- NoSQL: MongoDB
- Cache: Redis
- ORM: Mongoose

## DevOps & Cloud

- Container: Docker
- CI/CD: GitHub, Jenkins

## Frontend Web Developer

---

Snapmart Incorporated

April 2023 - March 2024

- As a Frontend React JS Developer, my primary responsibility is to continue the development of an ongoing project previously handled by another development team. I have quickly familiarized myself with the team's existing technologies, workflows, and problem-solving approaches, enabling a smooth transition and effective collaboration.
- I have maintained advanced proficiency in React state management strategies, ensuring optimal performance and state handling within the application. In collaboration with project managers, I have assisted in defining ambitious yet achievable coding milestones for the development of pre-release software projects.
- Furthermore, I have actively participated in software field testing to validate the performance and functionality of developed features. Additionally, I have contributed to updating legacy codebases to modern development standards, significantly enhancing both functionality and overall system performance.

# TECHNICAL SKILLS

## Frontend Development

- Languages: Javascript/ES6, Typescript
- Frameworks: ReactJS, NextJS, Redux Saga, Jess, React testing library
- UI Libraries: Material UI, Ant UI, Tailwind, SASS

## Projects

- <https://www.landers.ph>
- <https://admin.snapmart.ph>

## backend Development

- Languages: PHP, NodeJS
- Frameworks: Laravel, Express
- APIs: RESTful, GraphQL
- Auth: JWT, Laravel Auth

## Tools & Methodologies

- Version Control: GitHub
- Testing: Jess, React testing library
- Architecture: MVC
- Methodology: Agile

## DevOps & Cloud

- Container: Docker, Kubernetes
- CI/CD: SVN, GitHub, Bitbucket, Jenkins

## Tools & Methodologies

- Version Control: SVN, Git, Bitbucket
- Testing: Jess, Enzyme, React testing library
- Methodology: Agile

# **Senior Fullstack Web Developer**

---

Leekie Enterprises Incorporated

October 2018 - April 2023

- Experienced Frontend Developer with a strong focus on building and maintaining responsive, user-friendly websites—primarily in the online casino gaming industry. Skilled in modern web technologies including React JS, Vue JS, SASS, Webpack, Material UI, frontend unit testing, PHP, Laravel, Nodejs, Express.
- Responsible for translating design mockups into interactive web interfaces, planning development workflows, and ensuring website performance, security, and stability through regular maintenance and patching. Adept at optimizing existing websites, resolving client-reported issues, and enhancing functionality through debugging and performance tuning.
- Experienced in building cross-browser compatible landing pages using HTML and CSS, while collaborating closely with UI/UX designers to deliver visually compelling and seamless user experiences. Committed to writing clean, maintainable code and contributing to high-quality web applications through rigorous testing and continuous feedback integration.

## **TECHNICAL SKILLS**

### **Frontend Development**

- Languages: Javascript/ES6, Typescript
- Frameworks: ReactJS, VueJS, jQuery, NextJS, Redux, Jess , Enzyme, React testing library, Webpack, Gulp
- UI Libraries: Material UI, Ant UI, Tailwind, Bootstrap, SASS

### **Database & Caching**

- SQL: Mysql
- NoSQL: MongoDB
- Cache: Redis
- ORM: Mongoose

### **DevOps & Cloud**

- Container: Docker, Kubernetes
- CICD: SVN, GitHub, Jenkins

### **Projects**
