

ELVIS JOHN REYES CAYETANO

AI ENGINEER | FULL STACK DEVELOPER

AI-assisted engineering • React / Vue / Next.js • Node.js / PHP / Laravel • REST / GraphQL
09306915794 • elvisreyescayetano37@gmail.com • Caloocan City, Philippines
PORTFOLIO: elvisportfolio2026.netlify.app

PROFESSIONAL SUMMARY

AI-focused Full Stack / Frontend Engineer with 7 years of frontend development experience and 5 years of full-stack development. Experienced in building responsive, user-focused interfaces and scalable web applications using React, Vue, Next.js, Node.js, PHP, and Laravel. Hands-on with AI-assisted software engineering using Claude AI, GitHub Copilot, and OpenAI Codex for development, code analysis, debugging, refactoring, and implementation support. Strong background in RESTful APIs, GraphQL, databases, testing, CI/CD, performance optimization, and Agile delivery.

TECHNICAL EXPERTISE

AI & AI-Assisted Engineering:	Claude AI • GitHub Copilot • OpenAI Codex • AI-Assisted Development • Code Generation • Code Analysis • Debugging • Refactoring
Frontend Development:	JavaScript / ES6 • TypeScript • ReactJS • VueJS • NextJS • jQuery • Redux • Redux Saga • React Relay • Vite • Webpack • Gulp
Backend Development:	PHP • NodeJS • Laravel • Express • RESTful APIs • GraphQL • JWT • Laravel Auth
Databases & Caching:	MySQL • MongoDB • Redis • Mongoose
DevOps & CI/CD:	Docker • Kubernetes • Git • GitHub • Bitbucket • SVN • Jenkins
Testing:	Jest • Enzyme • React Testing Library • Vitest
UI / Styling:	Material UI • Ant UI • Tailwind CSS • SASS • HTML5 • CSS3
Architecture & Methodologies:	MVC • Agile • Code Reviews • QA / Testing • Responsive Web Development

PROFESSIONAL EXPERIENCE

AI Engineer | Elgada BPO Solutions Inc.

March 2024 – Present

- Redesign and rebuild legacy websites using modern technologies, primarily ReactJS, with emphasis on maintainability, responsiveness, and user experience.
- Use Claude AI, GitHub Copilot, and OpenAI Codex as part of an AI-assisted software engineering workflow for development, code analysis, debugging, refactoring, and implementation support.
- Collaborate with UI/UX and graphic designers and incorporate project-owner feedback into implementation and iterative improvements.
- Develop and integrate RESTful APIs, third-party services, and GraphQL while supporting scalable web application architecture.
- Participate in CI/CD, testing, QA, code reviews, Agile ceremonies, and team-based delivery.
- Build responsive interfaces using HTML5, CSS3, and JavaScript and help maintain quality across browsers and devices.

Frontend Web Developer | Snapmart Incorporated

April 2023 – March 2024

- Continued development of established projects while adapting to the team's technology stack, workflows, and delivery practices.
- Developed React-based interfaces and managed application state using modern frontend patterns.
- Worked toward project milestones, participated in field testing, and addressed issues identified during implementation.
- Contributed to modernization of legacy web applications and improved maintainability of frontend code.
- Projects: [landers.ph](#) • [admin.snapmart.ph](#)

Senior Fullstack Web Developer | Leekie Enterprises Incorporated

October 2018 – April 2023

- Developed frontend-heavy web applications for the online casino gaming industry using React, Vue, SASS, Webpack, and Material UI.
- Built and maintained backend functionality using PHP, Laravel, NodeJS, and Express.
- Translated design mockups and workflows into responsive interfaces while collaborating with UI/UX stakeholders.
- Focused on performance, security, stability, maintainability, and ongoing application improvements.
- Performed maintenance, patching, optimization, debugging, and performance tuning based on client and production issues.
- Created cross-browser landing pages and responsive web experiences and supported testing and feedback cycles.
- Projects: [games.classicku.com](#) • [338a.com](#) • [gosdsb.com](#) • [gobetx.com](#)

EDUCATION

Bachelor of Science in Information Technology

2014 – 2018

AMA Computer Learning Center
